i.2-RF Series

RF Series – Panic Proof Mortise Lockset

Best Quality – Affordable Security
Convenient Keycard/Fob Control

Control & Convenience

Easy & Seamless

i.2's RF Lock software and intelligent control system allow management to limit access without the need for old metal keys and cylinders. Changing tenants or residents is as easy as issuing an updated keycard or Fob.

New Tenant – New access immediately. No need to rekey the lock.

- Housekeeping personnel – limited to their work areas
- Emergency Card Access- Fast and easy in those critical times.

Quick & Easy Installation & Setup

Why choose i.2 RFID Locks?

- Designed for strength and reliability
- i.2 RFID Locks utilize the newest **Texas Instruments** processing chips for low energy consumption and dependable performance
- Modern design to blend with popular lever design.
- Economical trouble free operation. 30,000+ cycles equals approximately 3-4 years operation on a set of 4 standard alkaline batteries
- 3 piece anti friction deadlocking latchbolt with secure 1" throw Stainless Steel Panic Proof Deadbolt.
- Ergonomic ADA Interior thumbturn for easy operation...

Our i.2 RF Lock *DoorSys* Software Has the Power You Need

Our software has the options you need and still is easy to train new staff quickly. i.2 RF software has proven reliable in actual use for over 15 years. New features are upgraded regularly.
